4. Reasons (in case of a reasoned opinion)

Please give the reasons why the draft legislative act in question does not comply with the principles of subsidiarity and proportionality

☒ **Infringement of the principle of *subsidiarity*³**

- ☒ no / mistaken / unclear EU competence
- ☐ the objectives of the proposed action are *not necessary* and *do not provide a clear benefit* (on EU-level), because they
 - ☐ can be sufficiently achieved by the Member States, either at central or at regional and local level
 - ☐ cannot rather be better achieved at Union level, by reason of the scale or effects of the proposed action
- ☐ the proposal has no transnational aspect
- ☐ existing EU measures and/or targeted assistance provided in this framework are sufficient to achieve the intended objective
- ☒ other reasons or explanations:

No EU competence for spatial planning.

☐ **Infringement of the principle of *proportionality*⁴**

- ☐ the proposal is *not appropriate* to achieve the intended objective
- ☐ the proposed *form* of action (legal instrument) is *not necessary* to achieve the intended objective (e. g. a directive instead of a regulation would be sufficient)
- ☐ the *content* of the proposed action *exceeds what is necessary* to achieve the objectives of the Treaties
- ☐ the proposal does not leave sufficient room for national decision
- ☐ local and regional aspects are not taken properly into account
- ☐ the proposal imposes disproportional administrative burdens and associated costs
- ☐ regulations: the proposal is not exhaustively detailed (significant provisions will depend on delegated acts)
- ☐ directives: the proposal is too detailed and heavily regulated
- ☐ other reasons or explanations:
